Reporting questionnaire

Gender equality indicator 1: Gender composition of workforce

This indicator seeks information about the gender composition of relevant employers in a standardised format, to enable the aggregation of data across and within industries. New web-pages, resources and publications have been created, a range of training offered to people across the organisation so anyone can find out information in a timely manner and to the level most appropriate to their role. Crucially, the role of 'designated first responder' has been created so staff and students have people they know and trust to contact and seek out advice from.

18. If your organisation has introduced any outstanding initiatives that have resulted in improved gender equality in your workplace, please tell us about them.

(As with all questions in this questionnaire, information you provide here will appear in your public report.)

As Australia's University of Enterprise, UniSA is deeply committed to developing a workforce that is diverse and in which talented people thrive. We continually seek ideas from other organisations that we can build on to attract, develop and promote highly motivated and creative people who together foster a culture of enterprise. To create the momentum and drive the change we have chosen to actively participate in the Science in Australia Gender Equity (SAGE) Athena SWAN initiative with the Enterprise 25 ambition to become accredited as an Athena Swan Gold site.

As part of this commitment we recognised the importance of discussing and understanding unconscious bias especially for people involved in recruitment and academic promotion panels. In 2018, UniSA established a working group to conduct a literature review on unconscious bias training that identified the benefits, limitations and best practice. As a result UniSA is introducing unconscious bias training targeting people in key decision making roles (especially promotion and recruitment) and rolling out a range of strategies and development activities including face-to-face training, judicious use of videos created by other organisations and the

development of UniSA-specific resources and content such as our Recruitment Central unconscious bias page.
