DEFINITIONS:

Subject Area and Catalogue Number
Class Number

A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses by using this code.

Enrolment Class

A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.

Related Classes

An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.

Auto Enrol Class

Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.

External Class

In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

The external class number will be listed in the Classes column below. This number is the only enrolment class number you need to enter in 'Manage my Enrolment' when enrolling.

1. For graduates to satisfy the tertiary education requirements of Chartered Accountants Australia and New Zealand, all courses in the program schedule of the Master of Professional Accounting must be taken, unless an equivalent course has been taken from another award.
2. Students who wish to satisfy entry requirements for CPA Australia are not required to complete this course. Students may choose to replace this course with any other postgraduate course offered by the Business School and for which they meet the prerequisite requirements. Course replacements require the approval of the Program Director.
3. Electives should be chosen from the Electives list below. In completing any elective identified as a "CPA subject" you will not qualify as a CPA. To qualify as a CPA, you must meet ALL the requirements of the CPA Program as set by CPA Australia. Students completing "CPA subjects" will incur additional fees from CPA Australia in order to sit CPA Australia's exam.
4. Kindly note timetables can change without warning – ensure you check the timetable link for all up to date information.

EXTERNAL STUDENTS

Students studying off-campus. Administrative services for external students are located at [Campus Central](#).

External mode includes online, distance education, industry placement or directed research. Virtual classrooms are deemed to be an external mode of delivery. External model does not normally include a face to face component, however some courses offered in external mode may require a small component of on-campus activity.

It is strongly recommended that you visit the External Students webpage to gain valuable information regarding your studies.
