

Emergency Contact and Up-To-Date Intelligence 24/7

# WorldAware TravelKit App

Keeping personnel informed of safety and security issues worldwide, and providing them a tool to reach out for help with the touch of a button.

Having the right tools at hand are essential when wanting to stay informed of developments at home and abroad. TravelKit is a standalone mobile app that allows users to minimize their exposure to risks, avoid threats and easily connect with emergency contacts if necessary. The app harnesses the extensive analytical and operational strength of WorldAware, providing support and awareness of global developments, 24/7, from our operational centers in Annapolis, London, Cape Town, and Singapore.

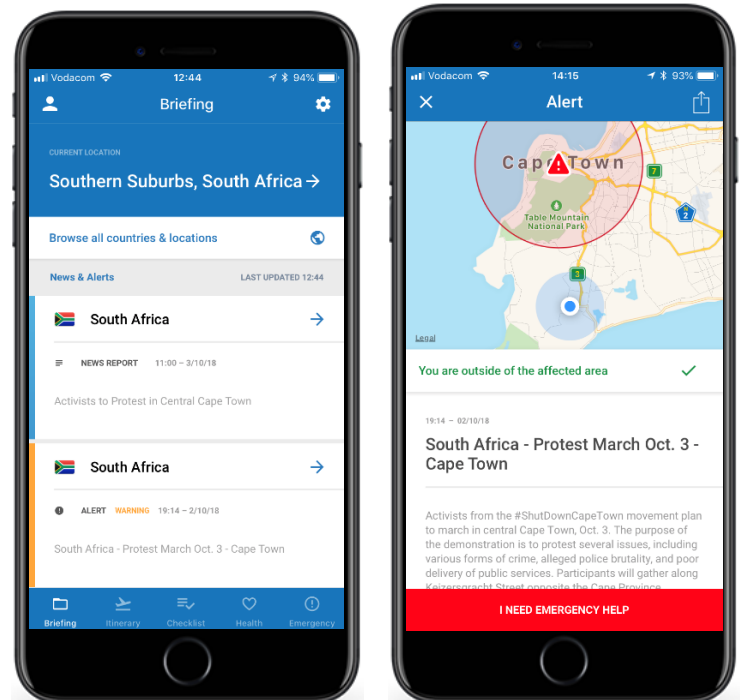

The geolocation capabilities of the app make it as beneficial when at home as abroad, notifying personnel of risks and disruptions in their area, no matter where they are.

*With TravelKit, you can be assured your people have everything they need—all in the palm of their hand—to travel and work in safety, allowing you to focus on other important aspects of your business.*

## On-hand Intelligence for Awareness and Safety

TravelKit includes the following:

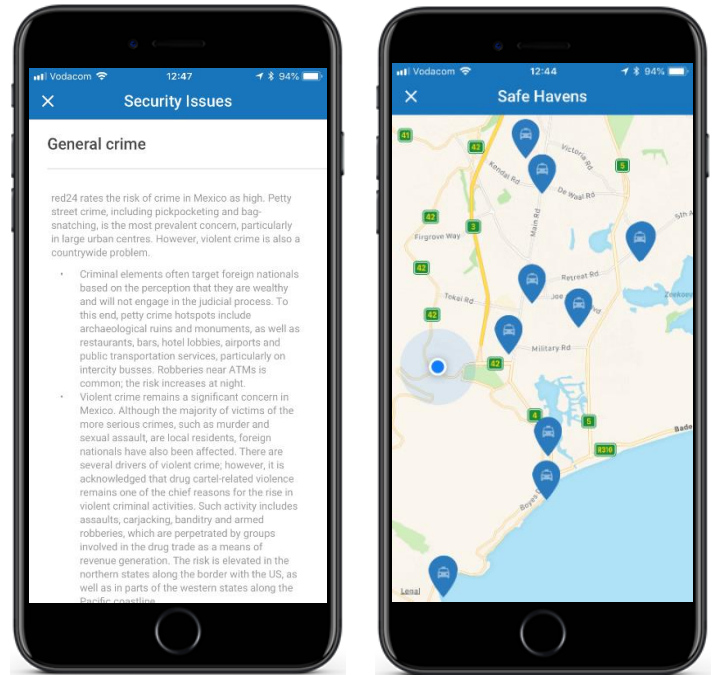

- **Country intelligence**, Immediate access to intelligence for over 200 countries and territories, including informative quick-reference risk indicators and in-depth information on topics such as security issues, transportation, cultural factors, and environmental concerns.
- **Alerts:** Prompt notification of any safety, security and travel-related incidents in the user's location, for other places on an itinerary, or for any other locations that have been selected on the app.
- **Geolocation:** Visual mapping and positioning of a users location in relation to an incident, so the area can be avoided.
- **Itinerary:** Notification of any major delays or cancellations on the Itinerary.
- **Emergency hotline:** Call an emergency hotline for assistance at any time with the click of a button.

- **Health intelligence:** Detailed country information on health risks, recommended inoculations, and the level of healthcare infrastructure and support.
- **Pre-trip checklist:** Automatic prompts provide reminders of passport and insurance documentation that is needed for the trip.
- **Safe-haven location:** See the closest safe-havens, including hospitals and police stations, or access a list of local emergency numbers.

## Download TravelKit

TravelKit is available from the Apple App Store and on Google Play for Android.

## About WorldAware

WorldAware, Inc. provides intelligence-driven, integrated risk management solutions that enable organizations to operate globally with confidence. WorldAware’s end-to-end, tailored solutions integrate world-class threat intelligence, innovative technology, and response services to help organizations avoid threats, mitigate risk, and protect their people, assets, and reputation.
