

2019 Student Experience Projects SSAF Funding Application

1. Background

From January 2012, Australian higher education providers began charging students a compulsory Student Services and Amenities Fee (SSAF) to support services and amenities of a non-academic nature. The SSAF is designed to improve non-academic services and amenities for students. It was introduced through the Higher Education Legislation Amendment (Student Services and Amenities) Act 2011, which was passed by the Australian Parliament in October 2011. The Act outlines 19 categories on which the SSAF can be spent and universities are obliged to comply with the [Student Services, Amenities, Representation and Advocacy Guidelines](#) which set benchmarks for student access to services such as health and welfare information, advocacy and orientation programs:

1. providing food or drink to students on a campus of the higher education provider;
2. supporting a sporting or other recreational activity by students;
3. supporting the administration of a club most of whose members are students;
4. caring for children of students;
5. providing legal services to students;
6. promoting the health or welfare of students;
7. helping students secure accommodation;
8. helping students obtain employment or advice on careers;
9. helping students with their financial affairs;
10. helping students obtain insurance against personal accidents;
11. supporting debating by students;
12. providing libraries and reading rooms (other than those provided for academic purposes) for students;
13. supporting an artistic activity by students;
14. supporting the production and dissemination to students of media whose content is provided by students;
15. helping students develop skills for study, by means other than undertaking courses of study in which they are enrolled;
16. advising on matters arising under the higher education provider's rules (however described);
17. advocating students' interests in matters arising under the higher education provider's rules (however described);
18. giving students information to help them in their orientation; and
19. helping meet the specific needs of overseas students relating to their welfare, accommodation and employment

The funding must not be spent on supporting a political party or the election of a person as a member of a political party at any level of government.

SSAF funds are allocated on an annual basis, by negotiation, to those areas responsible for providing a range of non-academic services to students. More detailed information on funding allocations is available on the [SSAF website](#).
