

Message from Professor Allan Evans

Provost and Chief Academic Officer

UniSA

At UniSA we are committed to building a culture of innovation through our teaching by empowering our academic workforce to become educators of the future. Our aim is to improve the quality of the teaching and learning experience for all our students no matter where they are.

The Provost and Chief Academic Officer's Portfolio leads the University's strategies to develop and innovate across our curriculum, enhance the use of digital technologies to facilitate learning, and strengthen the services provided for students to promote their success.

It encompasses the four University of South Australia Divisions:

- UniSA Business School
- Division of Education, Arts and Social Sciences,
- Division of Health Sciences
- Division of Information Technology, Engineering and the Environment,

and four Units:

- Student and Academic Services,
- Teaching Innovation Unit,
- UniSA International, and
- UniSA Online.

Our academic programs are designed with strong professional emphasis and in partnership with industry to enable work ready graduates. Our students benefit from digitally enabled learning experiences, innovative and research-driven teaching approaches, and the opportunity for flexible and personalised study.

UniSA's academics are committed to innovative, research linked student learning experiences that fully engage our students. Through high quality teaching, our graduates will be globally employable with the skills and knowledge to tackle the challenges of the future head on.

UniSA builds social cohesion through providing equitable access and outcomes for students from diverse backgrounds. We are committed to becoming the Aboriginal and Torres Strait Islander University of Choice.

As part of our commitment to creating a vibrant teaching and learning environment our University of South Australia Digital Learning Strategy 2015-2020 outlines the key projects the University will deliver to realise our ambition of being recognised internationally for our use of innovative digital technologies to deliver a compelling and industry-relevant learning experience for students.

The annual Curriculum Innovation Process supports UniSA's commitment to the development of a curriculum that engages students with active learning experiences.
