

YOUR ACADEMIC PROGRESS RESULTS

Dear <Students First Name>

To ensure you are adequately supported and able to complete your program, we regularly monitor your academic progress. You have been identified as making unsatisfactory progress in your studies for a second time and are now considered at risk of losing your place in your program.

For 1st Review Period 2022 you have been identified as making unsatisfactory progress, as you have:

- Failed 50% of your courses in this review period *and*
- Failed a course(s) for a second time *and*
- Failed a practicum or clinical placement

What does this mean for my studies?

Academic Progress

There are three stages to Academic Review: Notifications 1, 2, and 3. As you have failed to progress in your studies for a second time, you are now at Notification 2 and are required to attend formal academic counselling.

It is crucial that you continue to engage with academic counselling.

Low Completion Rate

From 2022, the University will also monitor your course results over your entire program, not just a period.

It is important to engage with the supports now to avoid [preclusion](#) in the future due to low completion.

[WHAT IS LOW COMPLETION?](#)

If you don't take any action, and are identified for a third time, you may lose your place in your program, and be [precluded](#) from further study in this discipline for two years.

What happens next?

Step One

Step Two

To help formulate a path to success, you are required to complete an **Academic Support Plan**. Click the button below to begin the questionnaire. You need to have completed the support plan within the next **10 working days**.

[ACADEMIC SUPPORT PLAN](#)

Once you have completed your Academic Support Plan you will be contacted by the [UniSA Allied Health & Human Performance](#) team to arrange an appointment to discuss your Academic Progress and Support Plan. The team can help you with next steps, and direct you to other University resources, to get your studies back on track.
