

Dear <Students First Name>

The study period's started

We're concerned as we've noticed that you haven't logged into your course page.

Logging in and engaging with your course work will put you in the best position to achieve a successful result.

- You should be regularly logging into [LearnOnline](#) and keeping up with the weekly course content.
- Most courses will have an assignment due within the first few weeks.
- Additionally, you should be spending a minimum of 10 hours of individual study for each course you are enrolled in.
- Don't be afraid to ask questions. Speak with your course coordinator and tutors.

We understand that study can be overwhelming however there are a wide range of support services available. From self-paced guides to peer assistance and personal counselling.
