# Favourite views

**Space Management**

- Sites
- Views
- Reports
- Documents
- Favorites**

To add a page to the Favorites menu, locate the page name in the navigation menu, hover over the page name and then click the Add to Favorites star that appears next to the page name.

To remove a page from the Favorites menu, click the Remove from Favorites star that displays next to the page name.

You can save **favourite views** so that you can access them more quickly

'Page' in instructions for Favorites refers to individual floor plans or views

723 Stage 2 - Extension	1956
723 Stage 3 - Extension	1961
723 Stage 4 - Site Works	

Sometimes the coloured stripes don't show very intuitively!

For example, part of corridor LB1-33 was constructed with the Base Building, part with Stage 2. But there's no control over how/where the colours appear on the graphic view

720	L05	H5-01C	Storage	4.72

You can print a floor plan or graphic view, but there's not much control over the output. Usually make sure you select Landscape in your printer options for the best page fit. You might also want to choose A3 page size. If available on your PC, you can print to pdf by choosing PDF as your printer in your printer options

**Export**

You can export data from the grid views by right-clicking in the grid and choosing **Export**.

Note you may find this won't work if you have selected a record in the grid. Try pressing F5 to refresh the view if Export not available, or if your export results are blank (note that F5 will reset all filters!).

If that doesn't work, click on the name of the view you want to export from in the menu again (also refreshes the view)

Items 1 to 50 of 195 Page: 1 of 4

Please select a record

Select a file type to export

XLS XLSX CSV DOC PDF

Close

Note that **ALL** records will be exported, not just those you can see on the first page in the grid. To export a subset of records, apply a search or filter first

Typically select XLS for the best output. This will export to Excel. This process may take a while depending on how many records you're exporting
