

# Report by the Members of the University Council

Members of the University Council present their report on the Consolidated Entity consisting of the University of South Australia (the University) and the entities it controlled at the end of, or during, the year ended 31 December 2009.

#### 2009 Council Members

The following persons were members of the University Council during the year and up to the date of this report (unless otherwise noted):

Dr Ian Gould, Chancellor

Professor Peter Høj, Vice Chancellor

Ms Alice McCleary, Deputy Chancellor (term completed 31 December 2009)

Associate Professor Stephen Boyle (term commenced 3 August 2009 to 31 December 2009)

Mr William Cossey, AM

Dr Wendy Craik, AM (term commenced 17 December 2009)

Professor Drew Dawson (term commenced 1 January 2009)

Mr Terry Evans

Ms Tanya Hosch (term commenced 1 January 2009)

Mr Bruce Linn

Mr Jim McDowell

Mr Ian McLachlan

Associate Professor Margaret Peters (leave of absence 3 August 2009 to 31 December 2009)

Mr Thomas Rudkin (term commenced 1 January 2009, term completed 31 December 2009)

Ms Anne Skipper AM (term commenced 1 January 2009, resigned 10 April 2009)

Dr Sue Vardon, AO

Mr James Wangmann (term commenced 1 January 2009, term completed 31 December 2009)

Ms Bronwen Webb

The remuneration of Council Members is detailed in Note 28(b) of the Financial Statements.

#### Changes in Council Membership since 31 December 2009

The following changes occurred in 2010:

Dr Sue Vardon AO

Resigned 12 January 2010

Ms Pauline Carr

Term commenced 30 March 2010

Ms Paula Nagel

Term commenced 30 March 2010

# Meetings of Members of the University Council

The numbers of meetings of the University Council and of each Council committee held during the year ended 31 December 2009, and the numbers of meetings attended by each member were: A = Number of meetings attended. B = Number of meetings held during the time the member held office or was a member of the committee during the year.

#### **Principal Activities**

The principal continuing activities of the Consolidated Entity are:

- To preserve, extend and disseminate knowledge through teaching, research, scholarship, consultancy or any other means;
- To provide tertiary education in such disciplines and areas of study as the University thinks appropriate to meet the needs of industry, commerce, the professions or any other section of the community;
- To provide such tertiary education programs as the University thinks appropriate to meet the needs of Indigenous people;
- To provide such tertiary education programs as the University thinks appropriate to meet the needs of groups within the community that the University considers have suffered disadvantages in education;
- To provide educational programmes for the benefit of the wider community or programmes for the enhancement of the diverse cultural life of the community, as the University thinks fit; and
- To foster and further an active corporate life within the University.

There were no significant changes in the nature of the activities of the Consolidated Entity during the 2009 year.

#### **Review of Operations**

The 2009 consolidated surplus was \$41.5 million (2008: \$37.2 million). The surplus resulted in a safety margin (operating surplus as a percentage of revenue) of 8.8% (2008: 8.2%). Revenue grew by 4.8 % to \$473.6 million. Revenue from fee-paying education services grew by \$12.5 million (13.2%), with the main area of growth being on-shore fee paying overseas student revenue which was up by \$11.9 million.

The University's consolidated financial position remained sound during the 2009 year with cash balances being \$145.6 million at year end (2008: \$111.4 million). Consolidated cash flows from operating activities in 2009 were \$86.5 million (2008: \$77.8 million).

#### Changes in State of Affairs

In the opinion of the members of the University Council there were no significant changes in the state of affairs of the Consolidated Entity that occurred during the 2009 year not otherwise disclosed in this report or elsewhere in the annual report.

#### Subsequent Events

There has not arisen in the interval between the end of the 2009 year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the members of the University Council, to affect significantly the operations of the Consolidated Entity, the results of those operations, or the state of affairs of the Consolidated Entity, in future financial years.

# Likely Developments and Expected Result of Operations

The Consolidated Entity will continue to pursue its principal activities while maintaining its financial sustainability.

#### **Environmental Regulation**

The Consolidated Entity's operations are subject to various environmental regulations under both Commonwealth and State legislation. The significant environmental regulations applying to the Consolidated Entity are Dangerous Substance Act (1979), Radiation Protection and Control Act (1982) and the Environmental Protection Act (1993).

University Council members are not aware of any significant breaches during the period covered by this report.

#### Insurance of Officers

The University has paid insurance premiums in respect to Directors and Officers liability, Directors and Officers supplementary legal expenses and statutory liability, for current and former members of University Council and officers.

Directors and Officers liability insurance does not cover acts that are fraudulent, dishonest or criminal. Statutory liability insurance does not cover breaches that are wilful, intentional or deliberate.

# Legal Proceedings on Behalf of the Consolidated Entity

There are no legal proceedings on behalf of the Consolidated Entity that have arisen during the 2009 year or subsequent to year end that affect significantly the operations of the Consolidated Entity.

This report is made in accordance with a resolution of the members of the University Council in Adelaide, South Australia on 20 May 2010.

Dr lan Gould

Chancellor

20 May 2010

Professor Peter Høj

Vice Chancellor and President

20 May 2010

#### 1. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of the financial report are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated. The financial report includes separate financial statements for the University of South Australia (the University) as an individual entity and the Consolidated Entity consisting of the University and its subsidiaries.

#### (a) Basis of preparation

The financial report is a general purpose financial report prepared in accordance with applicable Australian Accounting Standards (AASB), AASB Interpretations and the Department of Education, Employment and Workplace Relations (DEEWR) requirements.

Except where in conflict with the DEEWR requirements, the financial report is prepared in accordance with the South Australian Treasurer's Instructions and Accounting Policy Statements issued under the provisions of the Public Finance and Audit Act 1987.

Unless otherwise indicated, all amounts are rounded to the nearest thousand dollars and presented in Australian dollars.

#### Historical cost convention

The financial statements have been prepared on an accrual basis and under the historical cost convention, except for certain assets and liabilities that were valued in accordance with the applicable valuation policy.

#### Critical accounting estimates

Compliance with AASB requires certain critical accounting estimates and assumptions to be applied in preparing the financial statements. Further, it requires management to exercise judgement in applying the University's accounting policies. Management's judgement is based on estimates and associated assumptions which are supported by historical experience and other reasonable factors.

The areas involving a high degree of judgement where assumptions and estimates are significant to the financial statements are superannuation receivable and provision, valuation and depreciation of property, plant and equipment and long service leave. Further details are disclosed in the relevant notes to the financial statements.

Actual results may differ from these estimates. The estimates and underlying assumptions are reviewed regularly. Revisions to accounting estimates are recognised in the period which it effects. If the revision affects both current and future periods, the revision is recognised in the period of the revision and future periods.

#### (b) Principles of consolidation

#### (i) Subsidiaries

The consolidated financial statements incorporate the assets and liabilities of all subsidiaries of the University as at 31 December 2009 and the results of all subsidiaries for the year then ended. The University and its subsidiaries together are referred to in this financial report as the Group or the Consolidated Entity.

Subsidiaries are all those entities over which the Group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one half of the voting rights.

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are de-consolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between Group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

Details of subsidiaries are set out in Note 33.

#### (ii) Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights.

With the exception of Unisure Pty Ltd in 2008, the Group has no material investments in associates. The investment in Unisure Pty Ltd has not been accounted for using the equity method however the University has incorporated its share of the year end balances and the financial transactions of the Unisure Unit Trust within the Group.

Details of associates are set out in Note 34.

#### (iii) Joint venture operations

If material, the proportionate interests in the assets, liabilities and expenses of a joint venture operation are incorporated in the financial statements under the appropriate headings.

Details of joint venture operations are set out in Note 35. The University's interests in these joint ventures are not considered to be material to the University's core activities.

#### (iv) Joint venture entities

If material, the interest in a joint venture entity are accounted for in the consolidated financial statements using the equity method and are carried at cost by the University.

Under the equity method the Group's share of its associates' post acquisition profits or losses is recognised in the Income Statement, and its share of post acquisition movements in reserves is recognised in reserves. The cumulative post acquisition movements are adjusted against the carrying amount of the investment.

Details of joint venture entities are set out in Note 35(b). The University's interests in these joint ventures are not considered to be material to the University's core activities.

#### (c) Foreign currency translation

Foreign currency transactions are translated into Australian dollars using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Income Statement.

#### (d) Revenue recognition

Revenue is measured at the fair value of the consideration received or receivable. Amounts disclosed as revenue are net of returns, trade allowances and duties and taxes paid. Revenue is recognised for the major business activities as follows:

#### (i) Financial Assistance

DEEWR Financial Assistance (including Commonwealth Grant Scheme, Higher Education Loan Programs, Scholarships and DIISR – Research)

The University recognises DEEWR financial assistance as revenue in the year in which it had been designated for the funding of teaching and research.

# Other Financial Assistance (including ARC, NHMRC, Australian Government and State Government)

Grants received which have specified conditions which give the grantor the right to recall funds not spent in accordance with the specific agreement imposes on the University a performance obligation. That is, the University is required to consume the future economic benefits of the grant as specified, or return the grant to the grantor. Therefore these grants are deferred until this performance obligation has been extinguished and the grant funds have been expended in accordance with their respective agreement or the grantor has exercised the right for funds to be repaid or transferred.

Other grants which do not contain specified conditions are generally recognised on receipt.

#### (ii) Fees and charges

Fees and charges comprise revenue earned from the provision of programs and other services. Fees and charges are recognised in the period in which the programs or services are provided.

#### (iii) Investment income

Interest income is recognised as it accrues. Dividend income is recognised only when it is declared, determined or recommended by external entities before the 31 December reporting date.

#### (iv) Consultancy and contract research

Revenue from consultancy and contract research is recognised in the period in which the services are provided.

#### (v) Other revenue

Other revenue is recognised when the University obtains control or the right to receive the monies and the recognition criteria is met.

#### (e) Impairment of assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use.

#### (f) Cash and cash equivalents

Cash and cash equivalents includes cash on hand, deposits held at call with financial institutions, other short-term, highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

#### (g) Receivables

Trade receivables are recognised initially at fair value and subsequently adjusted for any provision for impairment. Trade receivables are normally due for settlement no more than 14 days from the date of recognition.

Student fees receivables are recognised initially at fair value as at census date and are collectible at that point. Periodically these receivables are adjusted for any provision for impairment.

Collectability of receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for doubtful debts is established when there is objective evidence that the University will not be able to collect all amounts due according to the original terms of receivables. The movement in the provision is recognised in the Income Statement in the period in which receivables are adjusted to an estimated recoverable amount (at least annually).

na

#### (h) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the Balance Sheet date.

Purchases and sales of investments are recognised on trade-date (the date on which the University commits to purchase or sell the asset). Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the University has transferred substantially all the risks and rewards of ownership.

Available-for-sale financial assets are carried at fair value. Unrealised gains and losses arising from changes in the fair value of non-monetary securities classified as available-for-sale are recognised in equity in the investments revaluation reserve. When securities classified as available-for-sale are sold or impaired, the accumulated fair value adjustments are included in the Income Statement as gains and losses from investment securities.

If the market for a financial asset is not active (e.g. unlisted securities), the University attempts to establish fair value by using other valuation techniques. If no relevant or reliable fair value can be determined then the valuation basis reverts to original cost adjusted for impairment.

The University assesses at each balance date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered in determining whether the security is impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit and loss is removed from equity and recognised in the Income Statement.

The University has investments in shares, property trusts and managed funds, which are classified as "available for sale financial assets" and are measured at fair value. During 2008 the global financial crisis caused financial markets to significantly decline. The University assessed its investments for objective evidence of impairment, and concluded that they were impaired. The amount of the impairment loss was \$1.91m and this was recognised by way of a reduction to the investment revaluation reserve in equity (\$1.46m) and an impairment loss in the Income Statement (\$0.45m). During 2009 markets recovered and the impairment loss recognised in 2008 was partially reversed in 2009 by way of an increase to the investment revaluation reserve in equity (\$0.91m) and an increase in the value of available-for-sale financial assets (\$0.91m).

#### (i) Property, plant and equipment

Property, plant and equipment original cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the University and the cost of the item can be measured reliably. Repairs and maintenance are charged to the Income Statement during the financial period in which they are incurred.

Revaluation increments are credited directly to the asset revaluation reserve except to the extent that the net increment reverses a net revaluation decrement previously recognised as an expense, in which case the revaluation increment is charged to the Income Statement.

Revaluation decrements are debited directly to the asset revaluation reserve to the extent that a credit balance exists for that asset class. Any remainder of the net revaluation decrement is charged to the Income Statement.

Revaluation increments and decrements are offset against one another within asset classes, but not otherwise.

Items of Property, plant and equipment have been recognised in the financial statements as identified below. Expenditure on a single item of less than \$10,000 is generally not capitalised.

#### (i) Land

Land occupied by the University is either owned by the University or by the State Government. All land is recognised on the basis that the University effectively controls the land occupied and is shown at fair value based on periodic, but at least triennial, valuations by external independent valuers.

The last valuation was as at 31 December 2007 and was performed by P. Lornie B Comm (VFM) AAPI and R. Wood B AppSc PRM(VAL) AAPI from Southwick Goodyear Pty Ltd. Land fair value estimates were based on the highest and best use of the land and valued separately from any structures or improvements residing on it, but having regard to any restrictions of its use. Detail of restrictions on assets is provided in Note 1(k).

#### (ii) Buildings

Buildings, other than buildings under construction, have been recognised on a fair value basis which Management have concluded is approximated by written down current cost. These fair value estimates are based on periodic, but at least triennial, valuations by external independent valuers.

As at 31 December 2007, the entire buildings portfolio was re-valued independently by P. Lornie B Comm (VFM) AAPI and R. Wood B AppSc PRM(VAL) AAPI from Southwick Goodyear Pty Ltd. Buildings fair value estimates were based on the highest and best use, being the existing use as University campuses. The valuation approach adopted was to assess the "written down current cost" for the buildings based upon the "new replacement cost" having regard to the estimated useful and remaining life for each structure.

Buildings under construction and buildings commissioned or purchased after the valuation are measured at cost.

#### (iii) Library collection

The library collection is valued at fair value. The University has concluded that the collection's fair value is best approximated by written down current cost based on a University valuation which is completed at the end of each year. The 2009 valuation resulted in a decrease of \$0.702 million and this has been recognised by way of a reduction to the library revaluation reserve in equity (\$0.083 million) and a loss in the Income Statement (\$0.619 million) recorded within other expenses.

#### (iv) Plant and equipment

Plant and equipment includes computer hardware and software, general equipment and vehicles. Plant and equipment is depreciated in accordance with Note 1(j). The carrying value, cost less accumulated depreciation, is deemed to approximate fair value.

#### (v) Art collection

As at 31 December 2007, the University internally valued its art collection at fair value with the offsetting adjustments to the art collection revaluation reserve. The 2007 valuation resulted in no change to the valuation of the art collection. The art collection will be internally re-valued every three years.

#### (vi) Leased Assets

Leases of Property, plant and equipment where the University has substantially all the risks and rewards of ownership are classified as finance leases (Note 31). Finance leases are capitalised at the lease's inception at the lower of the fair value of the leased property and the present value of the minimum lease payments. The corresponding rental obligations, net of finance charges, are included in interest bearing liabilities. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The interest element of the finance cost is charged to the Income Statement over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period. The property, plant and equipment acquired under finance leases are depreciated over the shorter of the asset's useful life and the lease term. Refer to Note 31 for details on operating leases.

#### (j) Depreciation and amortisation

Depreciation is provided for all property, plant and equipment other than land, art collection and buildings under construction. The University does not depreciate the art collection because it believes that the collection does not diminish in value over time. Depreciation is calculated on a straight line basis to allocate the written down current cost of an asset over its estimated remaining useful life.

Asset class	Useful life
Property:	
Buildings	Between 50 - 150 years
Leasehold improvements	Lease term
Library collection:	
Books	10 years
Journals	15 years
Electronic materials	10 years
Plant and equipment:	
IT infrastructure	5 years
IT systems	7 years
IT other	3 years
Motor vehicles	5 years
Other	10 years
Leased plant and equipment:	
IT infrastructure	5 years
IT other	3 years

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each Balance Sheet date.

#### (k) Restrictions on assets

Land includes \$42.130 million (2008: \$42.130 million) of Crown Lands and \$19.610 million (2008: \$19.610 million) of land dedicated for educational use by the Minister of Education.

The University has restrictions on the above land by application of the University of South Australia Act, 1990 Section 6(3).

#### (I) Intangible Assets

Expenditure on research activities, undertaken with the prospect of obtaining new scientific or technical knowledge and understanding, is recognised in the Income Statement as an expense when it is incurred.

With respect to internally generated intangible assets, expenditure on development activities is capitalised if the product or service is technically and commercially feasible and adequate resources are available to complete development. The expenditure capitalised comprises all directly attributable costs, including costs of materials, services, direct labour and an appropriate proportion of overheads. Other development expenditure is recognised in the Income Statement as an expense as incurred. Capitalised development expenditure is stated at cost less accumulated amortisation. Amortisation is calculated using the straight-line method to allocate the cost over the period of the expected benefit, which is currently between 5 and 7 years.

Intangibles in progress represent capitalised expenditure where the project was incomplete at balance date. The expenditure is transferred to Intangibles upon the completion of the project.

#### (m) Unfunded superannuation

In accordance with the 1998 instructions issued by the Department of Education, Training and Youth Affairs (DETYA), now DEEWR, the effects of the unfunded superannuation liabilities of the University and its controlled entities were recorded in the Income Statement and the Balance Sheet for the first time in 1998. The prior years' practice had been to disclose liabilities by way of a note to the financial statements.

In 2009, the DEEWR Guidelines for Defined benefit obligations (Superannuation) were rewritten to align with the accounting standards. Superannuation Supplementation Program funding is not to be recognised as a revenue as the payment is in respect of an existing liability. The recognition of the expense in the face statements should be offset by the revenue received in respect of the receivable from the Australian Government. This has resulted in the removal of the deferred government super revenue (Commonwealth Supplementation) from the income statement and moving the expense item (which is a net amount) to an "ordinary" expense within employee related expenses. As the University has a defined benefit plan which is fully covered by the Superannuation Supplementation program it has reported a nil expense in the income statement.

An arrangement exists between the Australian Government and the South Australian State Government to meet the unfunded liability of the University's beneficiaries of the South Australian State Superannuation Scheme on an emerging cost basis. This arrangement is evidenced by the State Grants (General Revenue) Amendment Act 1987, Higher Education Funding Act 1988 and subsequent amending legislation. Accordingly, the unfunded liabilities have been recognised in the Balance Sheet as a liability with a corresponding asset. The recognition of both the asset and the liability consequently does not affect the year end net asset position of the University or the Group. Refer to Note 32.

#### (n) Trade and other payables

These amounts represent liabilities for goods and services provided to the University prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

#### (o) Employee benefits

Employee benefits expected to be settled within one year have been recognised at their nominal amount. These liabilities are measured at the amounts expected to be paid when the liability is settled. Employee entitlements to be settled later than one year have been measured at the present value of the estimated applicable future cash flows.

#### (i) Wages, salaries, non-monetary benefits and annual leave

Liabilities for wages, salaries, non-monetary benefits and annual leave (including the leave loading) expected to be settled within 12 months of the reporting date are recognised in provisions in respect of employees' services up to the reporting date and are measured at the amounts expected to be paid when the liabilities are settled. The annual leave liability includes associated on-costs. Only on-costs accruing to employees are recognised under employee provisions, while related on-costs are recognised as payables.

#### (ii) Sick leave

No provision has been made for sick leave as all sick leave is non-vesting and the average sick leave taken in future years by employees is estimated to be less than the annual entitlement of sick leave.

#### (iii) Long service leave

The long service leave liability is independently actuarially estimated each year in accordance with AASB 119 *Employee Benefits*. The last update was performed at 31 December 2009 by Stuart Mules, FIAA, of Mercer Human Resource Consulting Pty Ltd.

The current portion represents the amount expected to be paid in the following 12 months.

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date. Consideration is given to expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national Government bonds with terms to maturity that match, as closely as possible, the estimated future cash outflows. The long service leave liability includes associated oncosts. Only on-costs accruing to employees are recognised under employee provisions, while related on-costs are recognised as payables.

#### (iv) Superannuation

Superannuation schemes exist to provide benefits to University employees and their dependants upon resignation, retirement, disability or death. The contributions made to the funded schemes and on an emerging cost basis to the unfunded schemes by the University and are expensed in the Income Statement. Note 32 provides details in respect of the individual schemes.

#### (p) Workers' compensation

The University is responsible for payments of workers' compensation. During the 2008 year Unisure Pty Ltd was replaced with Lawson Risk Management Services to administer workers' compensation arrangements on behalf of the University. Unisure Pty Ltd commenced the process of being deregistered in 2009. Note 34 provides details of net assets that were held by Unisure Pty Ltd on behalf of the University.

The provision for workers' compensation is independently actuarially estimated each year. The last update was performed at 31 December 2009 by Laurie Brett FIA, FIAA of Brett & Watson Pty Ltd using Case Estimation Methodology. Under this methodology consideration is given to individual case estimates of all open claims plus allowance for incurred but not reported claims, re-opening of claims regarded as closed and unforseen escalation of case estimates as more information becomes available.

#### (q) Funds held on behalf of external entities

The University holds funds on behalf of a number of external entities which are managed by the University. As at balance date, the funds held are included in cash assets and a corresponding liability is included in other liabilities (refer Note 26).

#### (r) Goods and services tax (GST)

Revenues, expenses and assets other than receivables are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables (excluding accruals) are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the ATO is included in receivables or payables in the Balance Sheet.

Cash flows are included in the Cash Flow Statement on a gross basis. The GST components of cash flows arising from investing and financing activities which are recoverable from, or payable to, the ATO are classified as operating cash flows.

#### (s) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the national income tax rate for each jurisdiction adjusted for changes in deferred tax assets and liabilities. Due to the University's Income Tax Exempt Charitable Entity status, it does not incur Australian income tax. In relation to foreign operations, the University is subject to tax under the Tax Acts applicable in some foreign countries. Tax in respect of these operations has been brought to account in the year it is incurred.

#### (t) Changes in Accounting Policy Note

Australian accounting standards and interpretations that have recently been issued or amended but are not yet effective, have not been adopted by the University for the reporting period ending 31 December 2009. The University has assessed the impact of the new and amended standards and interpretations and considers the impact to be insignificant.

#### 2. Disaggregated information (consolidated)

	Reve	nue	Resu	lts	Total	Assets
Geographical	2009 \$`000	2008 \$`000	2009 \$`000	2008 \$`000	2009 \$`000	2008 \$`000
Australia	454,471	432,860	40,662	36,364	1,163,256	1,188,677

#### 10. Correction of error

#### (a) Superannuation Supplementation Program funding

The DEEWR Guidelines for Defined benefit obligations (Superannuation) were rewritten to align with the accounting standards. Superannuation Supplementation Program funding is not to be recognised as a revenue as the payment is in respect of an existing liability. The recognition of the expense in the face statements should be offset by the revenue received in respect of the receivable from the Australian Government.

This has resulted in the removal of the deferred government super revenue (Commonwealth Supplementation) from the income statement and moving the expense item (which is a net amount) to an "ordinary" expense within employee related expenses.

As the University has a defined benefit plan which is fully covered by the Superannuation Supplementation program it has reported a nil expense in the income statement.

#### (b) Correction of error in recording of revenue in a previous financial year

During the year the University determined it had not correctly applied its revenue recognition policy in respect of the Diversity and Structural Adjustment Fund received from the Australian Government which is classified as Other Financial Assistance. The University had recognised the financial assistance as revenue in the year in which it had been designated however the grants received have specified conditions which give the grantor the right to recall funds not spent in accordance with the specific agreement which imposes on the University a performance obligation. That is, the University is required to consume the future economic benefits of the grant as specified, or return the grant to the grantor. Therefore these grants are deferred until this performance obligation has been extinguished and the grant funds have been expended in accordance with their respective agreement or the grantor has exercised the right for funds to be repaid or transferred.

This had the effect of overstating Australian Government financial assistance, Retained Earnings and Total equity and understating Other Liabilities and Total Liabilities by \$5.799 million.

This has been corrected by restating each of the affected financial statement line items as at 31 December 2008, as described above.

#### (c) Measurement of SuperSA

The University's superannuation liability with respect to future benefits for current pensioners and employees for South Australian superannuation fund (Super SA) was incorrectly measured by application of AAS 25 'Financial Reporting by Superannuation Plans'. The valuation methodology that should be applied is AASB 119 'Employee Benefits'.

This had the effect of understating the Non-Current Liability, Provision for State superannuation and the Non-Current Asset, Deferred Government superannuation contribution by \$143.500 million. There is no impact on Net Assets as the Non-Current Liability and Non-Current Asset offset.

This has been corrected by restating each of the affected financial statement line items as at 31 December 2008, as described above.

#### (b) Cash at bank and on hand

As at 31 December 2009, the deposits earned 3.25% interest (2008: 3.75%) and the interest is credited to the University quarterly in March, June, September and December.

#### (c) Deposits at call

During the year the cash deposits earned interest at a floating rate between 3.25% and 6.15% (2008: between 4.59% and 8.35%). These deposits had an average maturity of 96 days.

#### 17. Receivables

Total current receivables	27,268	25,152	26,063	23,367
Other	1,458	2,022	1,458	2,022
Commonwealth receivable	7,832	7,383	7,832	7,383

	14,287	12,147	13,082	10,362
Less: Provision for impaired receivables	(505)	(455)	(505)	(455)
Trade debtors	14,792	12,602	13,587	10,817

#### 17. Receivables (continued)

#### (a) Impaired receivables

As at 31 December 2009 current trade receivables of the Group with a nominal value of \$0.492 million (2008: \$0.440 million) were specifically identified as impaired. The individually impaired receivables were assessed in consultation with local responsible managers. Factors considered in the assessment included the age of the debt combined with the particular circumstances and experience with similar debt types. In addition, current trade receivables were collectively evaluated for impairment based upon past-due status and historical collection experience resulting in a further provision of \$0.013 million (2008: \$0.015 million). The total amount of the provision was \$0.505 million (2008: \$0.455 million).

The ageing of these receivables is as follows:

	Consol	idated
	2009 \$`000	2008 \$`000
Less than 3 months		2
3 to 6 months	27	14
Over 6 months	478	441
	505	455

As at 31 December 2009, trade receivables of \$4.966 million (2008: \$7.158 million) were past due but not impaired. These relate to a number of independent customers for whom there is no recent history of default.

The ageing analysis of these receivables is as follows:

	Consolidated
	2009 2008 \$`000 \$`000
Less than 3 months	4,021 6,157
3 to 6 months	760 826
Over 6 months	185 175
	4,966 7,158

Movements in the provision for impaired receivables are as follows:

	Consolidated	
	2009 \$`000	2008 \$`000
At 1 January	455	590
Provision for impairment recognised during the year	385	292
Receivables written off during the year as uncollectable	(42)	(114)
Unused amount reversed and debts collected	(293)	(313)
At 31 December	505	455

#### 17. Receivables (continued)

#### (a) Impaired receivables (continued)

Movements in the Student Fees provision for impaired receivables are as follows:

	Consolidated		
	2009	2008	
	\$`000	\$`000	
At 1 January	661	1,708	
Provision for impairment recognised during the year	316	556	
Receivables written off during the year as uncollectable	(325)	(1,603)	
Unused amount reversed and debts collected	(76)	-	
At 31 December	576	661	

The creation and release of the provision for impaired receivables has been included in 'Bad and Doubtful Debts Expense' in the Income Statement. Amounts charged to the provision account are written off when there is no expectation of recovering additional cash.

The other amounts within receivables do not contain impaired assets and are not past due. Based on credit history, it is expected that these amounts will be received when due.

#### (b) Foreign Exchange and Interest Rate risk

The carrying amount of the Group and the University's current receivables are denominated in Australian dollars.

#### (c) Fair value and credit risk

Due to the short-term nature of the current receivables, their carrying amount is assumed to approximate their fair value.

#### 18. Investments accounted for using the equity method

With the exception of Unisure Pty Ltd in 2008, the University has no material investments in associates or joint venture entities which would be accounted for in the consolidated financial statements using the equity method of accounting and carried at cost by the University.

Refer to Note 34 for the accounting methodology adopted for Unisure Pty Ltd.

### (c) Nature and purpose of reserves

The University has four reserves. The land and buildings reserve records revaluations in land and buildings, the available-for-sale investments reserve records revaluations in investments, the library revaluation reserve records revaluations in the library collection and the art collection revaluation reserve records revaluations in the art collection.

### 28. Responsible persons and Executive Officers

### (a) Names of responsible persons

The following persons were responsible persons of the University during the 2009 year. Council members include University employees who may be ex-officio members or elected staff members. An asterisk indicates University employees.

### 2009 Council Members

Dr Ian Gould, Chancellor

Professor Peter Høj\*, Vice Chancellor

Ms Alice McCleary, Deputy Chancellor (term completed 31 December 2009)

Associate Professor Stephen Boyle\* (term commenced 3 August 2009 to 31 December 2009)

Mr William Cossey, AM

Dr Wendy Craik, AM (term commenced 17 December 2009)

Professor Drew Dawson\* (term commenced 1 January 2009)

Mr Terry Evans

Ms Tanya Hosch (term commenced 1 January 2009)

Mr Bruce Linn

Mr Jim McDowell

Mr Ian McLachlan

Associate Professor Margaret Peters\* (leave of absence 3 August 2009 to 31 December 2009)

Mr Thomas Rudkin (term commenced 1 January 2009, term completed 31 December 2009)

Ms Anne Skipper AM (term commenced 1 January 2009, resigned 10 April 2009)

Dr Sue Vardon, AO

Mr James Wangmann (term commenced 1 January 2009, term completed 31 December 2009)

Ms Bronwen Webb\* (term commenced 1 July 2008, term completed 31 December 2009)

### 28. Responsible persons and Executive Officers (continued)

### (b) Remuneration of Council Members, Directors of Subsidiary companies and Executive Officers

Council members who were employees of the University did not receive any remuneration other than by way of salary and related benefits from a normal employment relationship. A number of Council members who were not employees of the University were entitled to receive remuneration for their services as a Council member from 1 July 2008. In addition 2 Council members received remuneration for their services as a Director of a Subsidiary company in 2009 (1 in 2008).

Fees paid to other audit firms:				
Audit and review of financial reports of any entity in the Consolidated Entity	19	9		
	252	264	233	255

### 30. Contingent liabilities

The University entered into an agreement with the Minister of the Department of Education, Training and Employment (DETAFE) on 20 February 1997 to provide 35 spaces in a Child Care Centre built in 1997 at the University's City West campus. If the agreement is terminated at any time after the commencement of the eighth year of the term, a sum of \$0.680 million is to be repaid on a pro rata basis reducing to zero after 21 years. As at 31 December 2009 this contingent liability reduced to \$0.437 million.

The University entered into an agreement with the Commonwealth Department of Innovation, Industry, Science and Research (DIISR) on 23 September 2009 to raise \$5.000 million by 2014 after which an endowed chair in child protection can be funded from investment revenue. The Commonwealth has provided \$2.000 million and the University must raise \$3.000 million by 2014. If the \$3.000 million is not raised by 2014, the Commonwealth may request repayment of any portion of the Commonwealth contribution of \$2.000 million. As at 31 December 2009 this contingent liability is \$2.000 million.

No material losses are anticipated in respect of any of the above contingent liabilities.

The University has no other material contingent liabilities.

### 31. Commitments for expenditure

### (a) Capital commitments

Capital expenditure contracted for at the reporting date but not recognised as liabilities is as follows:

	Consolidated		Ur	University	
	2009	2008	2009	2008	
	\$`000	\$`000	\$'000	\$`000	
Property, plant and equipment payable:					
Within one year	8,707	14,805	8,707	14,805	
Later than one year but not later than five					
years	4,279	23	4,279	23	
Later than five years				-	
	12,986	14,828	12,986	14,828	

### (b) Lease commitments - Operating leases

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases, net of any incentives received from the lessor, are charged to the Income Statement on a straight-line basis over the period of the lease.

Commitments in relation to leases contracted for at the reporting date, but not recognised as liabilities (i.e. operating leases), are payable as follows:

	5,835	8,811	5,835	8,811
Later than five years	-			
Later than one year but not later than five years	3,233	4,989	3,233	4,989
Within one year	2,602	3,822	2,602	3,822

Major operating leases include leases for office space, vehicles and computers. The terms of the office space lease agreements include renewal or purchase options ranging between 1 and 10 years.

### (c) Other expenditure commitments

Commitments for other expenditure in existence at the reporting date but not recognised as liabilities, are payable as follows:

Total other expenditure commitments	14,355	27,166	14,355	27,166
Later than five years	615	87	615	87
Later than one year but not later than five years	8,313	17,025	8,313	17,025
Within one year	5,427	10,054	5,427	10,054

### 32. Superannuation plans

The University contributes to the following employee superannuation funds:

### (a) South Australian superannuation fund (Super SA)

A number of present and past employees of the University and its predecessor institutions are members of State Government Superannuation Schemes. Under the schemes benefits are paid as a lump sum or continuing pension on the termination of employees' service based on contributions made by the employee and the employees' final salary. Employee contributions and certain employer contributions are paid to the South Australian Superannuation Board (the Board) which is responsible for the administration of the schemes.

Under current arrangements the Board pays the benefits and is reimbursed by the University for the shortfall in the employer's contribution. The Commonwealth Government fully funds the University on an emerging cost basis for the costs and recovers the State's share of the cost directly from the State Government.

The University's superannuation liability with respect to future benefits for current pensioners and employees was assessed (the Assessment) by the Director Superannuation (State Superannuation Office) Department of Treasury and Finance as at 31 December 2009 to be \$379.8 million (31 December 2008: \$462.6 million). The assessment took into account a discount rate based on the government bond rate as at 31 December 2009 and the latest triennial actuarial investigation of the South Australian Superannuation Fund as at 30 June 2007. This was performed by LC Brett, FIA, FIAA, of Brett and Watson Pty Ltd.

The University's liability under the schemes has been partly funded by an amount of \$23.2 million (2008: \$19.2 million) arising from 3% productivity employer contributions. This results in an unfunded liability of \$356.6 million (2008: \$443.4 million).

A STANDARD AND AND AND AND AND AND AND AND AND AN	No. of the last of	
Total liability	356,600	443,400
Present value of plan assets	23,200	19,200
Present value obligations	379,800	462,600
Defined benefit obligations		
	\$`000	\$`000
	2009	2008

The net unfunded amount has been recognised in the accounts of the University as a liability and a corresponding receivable from the Commonwealth Government. The asset and liability have been classified as current and non-current according to cash flow projections of the Assessment.

Recognition of the receivable from the Commonwealth is in accordance with DEEWR Guidelines and reflects an assessment that, while there is no legislated requirement, the Commonwealth has committed to fund the University's emerging costs.

Assumptions adopted by the Director Superannuation (State Superannuation Office), South Australian Department of Treasury and Finance in determining the University's liability were:

•	Rate of increase in the Consumer Price Index (CPI)	2.5% per annum (2008: 2.5%)
•	Rate of salary increases	4.0% per annum (2008: 4.0%)
•	Return on Fund assets	8.0% per annum (2008: 8.0%)
•	Discount Rate	5.9% per annum (2008: 4.1%)

These rates provide for a 1.5% real gap between CPI and salary increases and a further 1.9% real gap between salary increases and investment earnings.

### 32. Superannuation plans (continued)

### (b) Deferred Government superannuation contribution

The Commonwealth Government has undertaken to provide funding for emerging superannuation costs in its grants to institutions and to recover the State's share of the cost directly from the State Government.

On an accrual basis, expenses of \$24.722 million (2008: \$26.771 million) are offset by \$24.722 million Commonwealth Revenue. As the University has a defined benefit plans which is fully covered by the Superannuation Supplementation program these costs have been offset and therefore have not been disclosed in the income statement.

Note 41 (i) contains details regarding payments made to Super SA and revenue received from the Commonwealth Government.

	2009	2008
	\$`000	\$`000
Defined benefit obligations		
Current Provision for superannuation	26,000	25,300
Non-current Provision for superannuation	330,600	418,100
Total liability	356,600	443,400
Reimbursement rights		
Current Deferred Government superannuation contribution	26,000	25,300
Non-Current Deferred Government superannuation contribution	330,600	418,100
Total asset	356,600	443,400
Total net liability/asset in balance sheet		-

### (c) UniSuper

The University contributes to the following employee superannuation funds:

### (i) UniSuper Defined Benefit Division (DBD)

The University contributes to the DBD at a rate double the contributions made by employees. Employees' contributions are normally 7% of their gross salaries. The DBD provides defined benefits based on years of service, average service fraction and final average salary or choice of investment funds.

At its 23 November 2006 meeting the Board approved an amendment to Clause 34 of the UniSuper Trust Deed, effective 31 December 2006, altering its classification from a Defined Benefit Plan to a Defined Contribution Plan. Previously under Clause 34 if the UniSuper assets were considered by the Trustee to be insufficient to provide benefits payable under the Deed, the trust could request additional contributions from employers, provided they are given notice that such a request may be made 4 years in advance. If such a request was agreed to by employers then members were required to also make additional contributions equal to one-half of the rate which their employer is prepared to contribute.

Clause 34 now states that where the Trustee considers the assets to be insufficient to provide benefits payable under the Deed, the Trustee must reduce the benefits on a fair and equitable basis.

As set out under paragraph 25 of AASB 119 a defined contribution plan is a plan where the employer's legal or constructive obligation is limited to the amount it agrees to contribute to the fund and the actuarial risk and investment risk fall on the employee.

### 32. Superannuation plans (continued)

### (c) UniSuper (continued)

As at 30 June 2009 the assets of the DBD in aggregate (i.e. entire multiemployer DBD plan) were estimated to be:

- \$1,396.0 million in deficiency of vested benefits. The vested benefits are benefits which
  are not conditional upon continued membership (or any factor other than leaving the
  service of the participating institution) and include the value of CPI indexed pensions
  being provided by the DBD.
- \$39.0 million in deficiency of accrued benefits. The accrued benefits have been
  calculated as the present value of expected future benefit payments to members and
  CPI indexed pensioners which arise from membership of UniSuper up to the reporting
  date.

The vested benefit and accrued benefit liabilities were determined by the Fund's actuary Russell Employee Benefits using the actuarial demographic assumptions outlined in their report dated 12 June 2009 on the actuarial investigation of the DBD as at 31 December 2008. The financial assumptions used were:

	Vested Benefits	Accrued Benefits
Gross of tax investment return	7.25% p.a.	8.50% p.a.
Net of tax investment return	6.75% p.a.	8.00% p.a.
Consumer Price Index	2.75% p.a.	2.75% p.a.
Inflationary salary increases long term	3.75% p.a.	3.75% p.a.
- TO CONTROL OF THE C	Max 18 24 34 34 1 1 2 2 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3 3	

Assets have been included at their net market value, i.e. allowing for realisation costs.

### (ii) UniSuper Accumulation Super 2 (Accum 2)

The University contributes to the scheme at a rate double the contributions made by employees. Employees' contributions are normally 7% of their gross salaries. The fund provides benefits based on the defined contributions of the University and employee during the membership of the employee.

Employees may have an Accum 2 account if they had elected within the first 12 months of membership to transfer their benefit calculation from the DBD to the Accum 2. Contributions made by both the employee and employer remain unchanged.

### (iii) UniSuper Accumulation Super 1 (Accum 1)

The University makes contributions into the fund for employee entitlements arising under the Superannuation Guarantee (SG) and Award obligations. The scheme is non-contributory for employees. The fund provides benefits based on the defined contributions of the University during the membership of the employee.

The University has recognised an expense of \$19.157 million (2008: \$17.996 million) in respect of the DBD and Accum 2.

The University has also recognised an expense of \$9.355 million (2008: \$8.831 million) in respect of Accum 1.

### 33. Subsidiaries

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 1(b):

Nam	ne of entity	Country of incorporation	Ownershi	p interest
			2009 %	2008 %
(a) (b)	ITEK Pty Ltd University of South Australia Foundation	Australia	100	100
1-/	Incorporated	Australia	100	100

### (a) ITEK Pty Ltd (ITEK)

ITEK Pty Ltd was formed on 1 July 1999 and since this time has had a year end date of 30 June. Financial results are consolidated on a calendar year basis. ITEK Pty Ltd is trustee for the ITEK trust and has a 100% controlling interest in GTA Pty Ltd which is trustee for the GTA trust. The ITEK trust provides the University with business incubation and technology commercialisation services. ITEK's role is to support the commercialisation of University research through the formation of spin-off companies, licensing and the sale of intellectual property to generate returns for the University, and also for the staff and students involved in the creation of intellectual property.

### (b) University of South Australia Foundation Incorporated (Foundation)

The Foundation is a dormant entity with no assets, liabilities or equity as at 31 December 2009. This company will remain legally intact indefinitely to ensure that any future bequests, which have named the Foundation as the beneficiary, will ultimately flow to the University as intended.

The Foundation's purpose was to partner the University, its alumni and its supporters in industry and elsewhere in generating philanthropic support for the benefit of the University.

### 34. Investments in associates

The University has an interest in Unisure Pty Ltd and SABRENet Ltd as described below:

### (a) Unisure Pty Ltd (Unisure)

The University is a shareholder along with The University of Adelaide and the Flinders University of South Australia in Unisure Pty Ltd, which managed workers' compensation claims on behalf of the three institutions. The University's interest (33.3%) in Unisure Pty Ltd is not considered to be material to the University's core activities. Consequently, the investment in the Associate has not been accounted for using the equity method as per the Australian Accounting Standard AASB 128 'Investment in Associates' however, consistent with prior years, it has incorporated its share of the year end balances and the financial transactions of the Unisure Unit Trust within the University.

Unisure Pty Ltd is the trustee of the Unisure Unit Trust which held the University's workers' compensation liabilities and the associated investment funds. In December 2009 an application for the voluntary de-registration of Unisure Pty Ltd was made. De-registration was approved by the Australian Securities & Investment Commission (ASIC) on 15 January 2010 with formal de-registration of Unisure Pty Ltd notified from ASIC on 15 March 2010. The process of winding up of the Unisure Unit Trust and de-registration of Unisure Pty Ltd has involved the distribution of the assets to the Unit Holders net of liabilities. In 2009 UniSA received \$1.785 million in distributions (2008: nil).

As at 31 December 2009 the Unit Trust did not hold any net assets on behalf of the University of South Australia (2008: \$1.790 million).

### 34. Investments in associates (continued)

### (b) SABRENet Ltd (SABRENet)

SABRENet Ltd was registered on 28 September 2005 as a non-profit company limited by guarantee and has been recognised by the Australian Tax Office as a tax exempt entity. The founding members are the three South Australian Universities and the South Australia Government.

The objects for which the company was established are to be a non-profit institution to further the use of advanced data networking for the conduct of research and education in South Australia for the benefit of South Australia and for the purposes of economic and social advancement in Australia generally.

While the University has significant influence over SABRENet, its interest in SABRENet is limited to the use of SABRENet's asset (the network). That is, the University receives no return for its interest in SABRENet. To date, the University has provided \$0.250 million to SABRENet which has been recognised as an expense in the year payment was made.

Each of the above associates is incorporated in Australia.

### Carrying amounts:

Information relating to associates is set out below:

Entit	<b>y</b>	Principal activity		ership rest	Conso carr amo	ying	carr	ersity ying ount
			2009 %	2008 %	2009 \$`000	2008 \$`000	2009 \$`000	2008 \$`000
(a)	Unisure Pty Ltd*	Managed workers' compensation claims on behalf of the University.	33%	33%		1,790	ì	1,790
					-	1,790	7	1,790

<sup>\*</sup> As discussed above the University's investment in Unisure is proportionately consolidated within the University and Consolidated Entity. Therefore the carrying amount denoted here represented the net assets carried within the accounts.

	Consol	idated
	2009 \$`000	2008 \$`000

2008				
Unisure Pty Ltd	1,790	12	322	282

### 35. Interests in joint ventures

### (a) Joint venture operations

The University's interests in joint venture operations are as follows:

Entity		Reporting date	Output i	nterest
			2009	2008
(i)	Mawson Centre Building	31 Dec	63.00%	63.00%
(ii)	Signal Processing Research Institute (SPRI) Building	30 Jun	100.00%	30.00%
(iii)	e-Research SA	31 Dec	25.00%	25.00%
(iv)	SA node of the Australian National Fabrication Facility (ANFF)	30 Jun		

### (i) Mawson Centre Building

The University, the City of Salisbury, the Land Management Corporation, Delfin Lend Lease and the Department of Education and Children's Services (DECS) entered into an agreement in 2003 to design, develop, construct and eventually operate the Mawson Centre at Mawson Lakes. This multi-purpose community centre will assist in meeting the cultural, entertainment, recreational and educational needs of the Mawson Lakes residents, employees and adjacent community. The University has a 63% share of the joint venture and management responsibility for the centre, with the City of Salisbury holding a 19% share and DECS holding an 18% share.

In 2007 the building was independently re-valued and the University's 63% share of the asset's carrying amount as at 31 December 2009 is \$8.709 million (2008: \$8.901 million) which is included in Buildings.

### (ii) Signal Processing Research Institute (SPRI) Building

The University and the Technology Development Corporation (subsumed by the MFP Development Corporation and subsequently the Land Management Corporation) entered into an agreement in 1991 to establish a building to house the SPRI at Mawson Lakes. The agreement provided the University with a 30% share of the joint venture with the Land Management Corporation holding the remaining 70% share. In August 2009 the University acquired the Land Management Corporation share and the joint venture ceased operation.

In 2007 the building was independently re-valued and the University's 30% share of the asset's carrying amount as at 31 December 2009 is \$2.213 million (2008: \$2.280 million) which is included in Buildings at Valuation. The University's additional 70% share of the asset's carrying amount as at 31 December 2009 is \$4.869 million (2008: nil) is included in Buildings at Cost and will be revalued in 2010.

### (iii) e-Research SA (formerly South Australian Partnership for Advanced Computing (SAPAC))

eResearch SA is a collaborative joint venture of the three South Australian universities and its mission is to support the development, implementation and use of eResearch methodologies and activities in South Australia and to provide access to eResearch facilities and practical support for researchers from all disciplines. The University's 25% share of this joint venture has not been included in the consolidated report due to them being immaterial to the University's activities.

### 35. Interests in joint ventures (continued)

### (a) Joint venture operations (continued)

### (iv) South Australian node of the Australia National Fabrication Facility (ANFF)

Established in 2007, under the National Collaborative Research Infrastructure Strategy, the ANFF links seven university-based nodes to provide researchers and industry with access to state-of-the-art fabrication facilities. Each node offers a specific area of expertise including advanced materials, nanoelectronics and photonics and bio nano applications. The ANFF is a company limited by guarantee and no contributions were made to the ANFF during the year.

### (b) Joint venture entities

The University has an interest in a number of joint venture entities as described below. The University's interests in these joint ventures are not considered to be material to the University's core activities. Consequently, they have not been taken up in the accounts on an equity basis as per the Australian Accounting Standard AASB 131 Interest in Joint Ventures.

Entit	v	Reporting Date	Ownershi	p Interest
			2009	2008
(i)	Australian Centre for Community Ageing	30 Jun	25.00%	25.00%
(ii)	Co-operative Research Centre for Integrated Engineering Asset Management	30 Jun	11.41%	10.74%
(iii)	Co-operative Research Centre for Irrigation Futures	30 Jun	3.85%	2.95%
(iv)	Co-operative Research Centre for Sustainable Tourism Pty Ltd	30 Jun	2.72%	2.15%
(v)	Desert Knowledge Co-operative Research Centre	30 Jun	9.08%	8.39%
(vi)	South Australian Consortium for Information Technology and Telecommunications	31 Dec	33.33%	33.33%
(vii)	Spencer Gulf Rural Health School	31 Dec	50.00%	50.00%
(viii)	South Australian Tertiary Admissions Centre	30 Jun	25.00%	25.00%
(ix)	Co-operative Research Centre for Advanced Automotive Technologies	30 Jun	5.00%	4.50%
(x)	Co-operative Research Centre for Contamination Assessment and			
	Remediation of the Environment	30 Jun	24.85%	27.69%
(xi)	Co-operative Research Centre for Polymers	30 Jun	1.86%	1.72%
(xii)	Co-operative Research Centre for Rail Innovation	30 Jun	11.00%	7.23%
(xiii)	Australian Seafood Co-operative Research Centre	30 Jun	2.08%	2.16%
(xiv)	Australian Synchrotron	30 Jun	1.00%	1.00%

### (i) ACCA - Australian Centre for Community Ageing

The ACCA is a joint venture collaboration involving internationally recognised education and training organisations, a major aged care provider, an international developer of urban communities and an internationally respected Research Centre. The collaboration involves the 'pooling' of expertise contributed by each of the joint venture members with an aim of applying outcomes of quality research in ageing issues into practical solutions for older people, as well as informing those who supply older people with goods and services.

### 35. Interests in joint ventures (continued)

### (b) Joint venture entities (continued)

### (ii) CIEAM - Co-operative Research Centre for Integrated Engineering Asset Management

The CIEAM is a national co-operative research centre which involves a multidisciplinary team of Australia's leading researchers in engineering, IT, business and humanities, and six major industry partners in a novel, coordinated and comprehensive approach to the maintenance of Australia's national engineering infrastructure. It will be a leading international research centre focusing on innovative industry directed R&D, education and commercialisation in an integrated approach to life-cycle physical asset management to meet present and future needs to ensure international competiveness and sustainability of Australian industry.

### (iii) CRCIF - Co-operative Research Centre for Irrigation Futures

The CRCIF is a national co-operative research centre. Its goals are to double profitability and halve water use of Australian irrigation. It also intends to define and promote sustainable irrigation areas and practices.

### (iv) CRCST Pty Ltd - Co-operative Research Centre for Sustainable Tourism Pty Ltd

The CRCST is a national co-operative research centre with a focus on delivering innovations and strategic knowledge to business, community and government to enhance the environmental, economic and social sustainability of tourism.

### (v) DK-CRC - Desert Knowledge Co-operative Research Centre

The DK-CRC is a national co-operative research centre and brokerage institution that links researchers with 27 partners. Its purpose is to develop and disseminate an understanding of sustainable living in remote desert environments, delivering enduring regional economies and livelihoods based on Desert Knowledge, and creating the networks to market this knowledge in other desert lands.

### (vi) SACITT - South Australian Consortium for Information Technology and Telecommunications

The SACITT brings together the three universities of SA and is supported by an Advisory Board comprising industry and government representatives. Its purposes are to establish South Australia as an international centre for IT&T research and academic excellence, to create a single point of focus for marketing the state as centre for IT&T research and academic excellence, to create a forum for information sharing and collaboration, to coordinate future IT&T research demands by South Australia industry, and to enable the three universities to plan jointly for education provision in IT&T through advice to the South Australian Vice-Chancellors' Committee.

### (vii) SGRHS - Spencer Gulf Rural Health School

The SGRHS is a regional multi-disciplinary school of health science created as a joint initiative of the University of Adelaide and the University of South Australia, supported by the Commonwealth Government. It is located at the University of South Australia, Whyalla campus. The aim of the Centre is to improve access to appropriate health care services for rural and remote communities.

### (viii) SATAC - South Australian Tertiary Admissions Centre

The SATAC is a joint venture of the three South Australian universities and the Minister for Education Training and Employment. The SATAC receives and processes undergraduate and postgraduate applications for admission to the TAFE SA, Charles Darwin University and the three universities in South Australia.

### 35. Interests in joint ventures (continued)

### (b) Joint venture entities (continued)

### (ix) Auto CRC - Co-operative Research Centre for Advanced Automotive Technologies

The Auto CRC was created in December 2005, as part of a national strategy to secure Australia's position in the global automotive industry. The Auto CRC aims to deliver outcomes that will directly enhance the viability and sustainability of the Australian automotive industry, its capability to export and its productivity. The Auto CRC will provide the incentive for industry to work with research providers in design, engineering and manufacturing research, which will also develop skilled professionals to utilise the outcomes generated.

### (x) CRC CARE - Co-operative Research Centre for Contamination Assessment and Remediation of the Environment

The CRC CARE was established under the Federal Government's CRC Program in 2005 to bring together Australia's foremost expertise in science, industry and government. The CRC CARE is a research and development organization providing cutting edge technologies and knowledge in assessing, preventing and remediating contamination of soil, water and air.

### (xi) CRC Polymers - Co-operative Research Centre for Polymers

The CRC for Polymers conducts leading-edge polymer research to deliver the technically advanced polymeric materials and polymer engineering required to transform Australian industries and to establish and expand companies in emerging high-growth areas of the economy. Its research activities are conducted in four programs: biomedical polymers; advanced polymeric materials; polymers for sustainable development; and engineering and design. The Centre is an incorporated joint venture between organisations that include companies, universities and government research laboratories.

### (xii) CRC for Rail Innovation - Co-operative Research Centre for Rail Innovation

The CRC for Rail Innovation commenced 1 July 2007 and is a collaborative joint venture between leading organisations in the Australian rail industry and Australian Universities and is supported by the Commonwealth Government. It seeks to build on the successful collaborative arrangements and approaches from the former Rail CRC by meeting growing transport needs identified by both the rail industry and researchers.

### (xiii) Australian Seafood CRC – Australian Seafood Co-operative Research Centre for Polymers

The Australian Seafood CRC has a vision to assist the seafood industry to profitably deliver safe, high quality and nutritious Australian seafood products to premium domestic and overseas markets. It aims to stimulate and provide comprehensive seafood related research and development and industry leadership on a national basis to address institutional and market failure in many of the Australian seafood industry's value chains. The Australian Seafood CRC will undertake research programs covering value chain profitability and product quality and integrity.

### (xiv) Australian Synchrotron (via the SA / La Trobe consortium)

The Australian Synchrotron is a joint venture entity funded by the Victorian State Government and various funding partners, one of which is The University of South Australia, a founding member as part of the South Australia / La Trobe University consortium. The Australian Synchrotron was established with an initial subscription of \$150million and is an essential tool for new science providing world leading technical capability to serve universities, research organisations and industry. The facility promotes the international collaboration for important to leading-edge R&D, and is a hub for research that will greatly benefit Australia and our regional neighbours.

### 36. Events occurring after the Balance Sheet date

There has not arisen in the interval between the end of the financial year and the date of this report any item, transaction, event of a material and unusual nature likely to affect significantly the operation of the Consolidated Entity, the results of operations, or the state of affairs of the Consolidated Entity in future periods.

### 37. Reconciliation of operating result after income tax to net cash inflow from operating activities

			olidated		ersity
		2009 \$`000	2008 \$`000	2009 \$`000	2008 \$`000

	Donations of works of art and library materials	400	317	400	317
		400	317	400	317

### 39. Assets and liabilities of trusts for which the University is trustee

The University was custodian for the following Funds during the year:

Donald Dyer Scholarship; and Irene & David Davy Scholarship.

### 40. Financial risk management

The University's activities expose it to a variety of financial risks: market risk (including currency risk, fair value interest rate risk, cash flow interest rate risk and price risk), credit risk and liquidity risk. The University's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. The University currently does not hold any derivative instruments.

The University uses different methods to measure different types of risk to which it is exposed. These methods include informal sensitivity analyses and seeking professional advice with respect to managing the market risk of its investments.

Risk management is co-ordinated by the University under policies approved by Council. The University identifies and evaluates financial risks in close co-operation with the University's operating units.

### (a) Market risk

### (i) Foreign exchange risk

The University assesses the likely foreign exchange risk for offshore activities and enters into hedging arrangements if appropriate. As at 31 December 2009 the University held USD\$0.001 million (AUD\$0.001 million) (2008: USD\$1.929 million (AUD\$2.785 million)) and MYR\$0.174 million (AUD\$0.057 million) - Malaysian Ringgit (2008: MYR\$0.147 million (AUD\$0.061 million)) in offshore bank accounts. During 2009 the University did not enter into any hedging contracts to mitigate foreign exchange risk as transactions in foreign currencies are partially offset by natural hedging arrangements. From time to time the University purchase and hold foreign currency to assist with the purchase of goods and services and to help manage foreign exchange risk. Currency conversion gains and losses are included in the operating result for the year.

### (ii) Cash flow and fair value interest rate risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate due to changes in market interest rates. The \$35.0 million bill facility (refer note 24) with the NAB is at a floating rate of interest.

Exposures arise predominantly from assets and liabilities bearing variable interest rates as the Consolidated Entity intends to hold fixed rate assets and liabilities to maturity.

### (iii) Risk associated with Available-for-sale assets

Investments mainly comprise investments in listed entities. The University has a prudent investment strategy. It is acknowledged there may be short-term fluctuations in asset values from time to time, however historical trends for such a strategy indicate that, with reasonable probability, unrealised losses will be recovered in the medium to long term.

The nature of the University's activities are generally low risk. Investments tend to be largely held in term deposits with banking institutions and debtors are spread across a large number of customers. Derivative instruments are rarely used. Due to the nature and value of the financial instruments held by the University, sensitivity analysis has not been provided.

### (b) Credit risk

Credit risk represents the loss that would be recognised if counterparties failed to perform as contracted.

The credit risk on financial assets excluding investments of the University which have been recognised in the Balance Sheet is the carrying amount net of any provisions for impaired receivables.

The University is not materially exposed to any specific overseas country or individual customer.

### 40. Financial Risk Management (continued)

### (c) Liquidity risk

The University maintains a \$35.0 million bill facility with the NAB which has a drawdown facility, available to 31 October 2010. As at 31 December 2009 this facility has not been drawn down.

The following tables summarise the maturity of the Group's financial assets and financial liabilities:

	Average interest rate	Less than 1 year	1 to 5 years	5+ years	Non interest bearing	Total
	%	\$`000	\$`000	\$`000	\$`000	\$`000

### FINANCIAL STATEMENTS

### FOR THE YEAR ENDED 31 DECEMBER 2009

To the best of our knowledge and belief:

- the financial statements:
  - are in accordance with the accounts and records of the University and give an accurate indication of the financial transactions of the University for the year then ended;
  - comply with the relevant Treasurer's Instructions promulgated under the provisions of the South Australian Public Finance and Audit Act 1987;
  - comply with relevant Accounting Standards and other mandatory professional reporting requirements in Australia, except to the extent noted in Note 1 Summary of Significant Accounting Policies and the Independent Audit Report; and
  - present a true and fair view of the financial position of the University as at 31
     December 2009 and the result of its operations and its cash flows for the year then ended;
- the amount of Australian Government financial assistance expended during the reporting period was for the purpose(s) for which it was intended and the University has complied with applicable legislation, contracts, agreements and program guidelines in making expenditure; and
- internal controls over financial reporting and preparation of the financial statements have been effective throughout the reporting period.

### To the Chancellor University of South Australia

As required by section 31 of the *Public Finance and Audit Act 1987*, I have audited the accompanying financial statements of the University of South Australia and controlled entities for the financial year ended 31 December 2009. The financial statements comprise:

- · A Statement of Comprehensive Income
- · A Balance Sheet
- A Statement of Changes in Equity
- · A Statement of Cash Flows
- Notes to and forming part of the Financial Statements
- A certificate from the Chancellor, the Vice Chancellor and President and the Executive Director Finance and Resources.

The financial statements includes the consolidated financial statements of the consolidated entity, comprising the University of South Australia and the entities it controlled at the year's end or from time to time during the financial year.

### The Responsibility of the University Council for the Financial Statements

The University Council are responsible for the preparation and the fair presentation of the financial statements in accordance with the Treasurer's Instructions promulgated under the provisions of the *Public Finance and Audit Act 1987*, the *Higher Education Supporting Act 2003* and Australian Accounting Standards. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

### **Auditor's Responsibility**

My responsibility is to express an opinion on the financial statements based on the audit. The audit was conducted in accordance with the requirements of the *Public Finance and Audit Act 1987* and Australian Auditing Standards. The Auditing Standards require that the auditor complies with relevant ethical requirements relating to audit engagements and plans and performs the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of accounting estimates made by the University Council, as well as the overall presentation of the financial statements.

I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my auditor's opinion.

### **Basis For Qualified Auditor's Opinion**

The University has recognised \$25.6 million of unspent funding as a liability for the year ended 31 December 2009. This amount has been accounted for as income received in advance and included in 'Other Liabilities - Commonwealth and State Government Grants' and 'Other Liabilities - Income in advance on incomplete projects' in Note 26 to the financial statements. The University has disclosed its accounting treatment of these funds in Note 1(d) to the financial statements.

In my opinion, the funds represent contributions and meet the recognition criteria of income in accordance with Accounting Standard AASB 1004 'Contributions' and the Department of Treasury and Finance Accounting Policy Framework V 'Income Framework'. The University controls these funds upon receipt and it is highly probable that any unspent funds will be spent in accordance with stipulated conditions. It is highly unlikely that unspent funds will need to be repaid to the granting bodies and as such funds received, including any unspent portion, should be recognised as income at the time of receipt.

As a result, the following has been misstated in the 2009 financial statements:

- the revenue recognised as Australian Government Grants is understated by \$11 million (\$6.9 million understated in 2008)
- the revenue recognised as State Government Financial Assistance is overstated by \$2 million (\$1.5 million overstated in 2008)
- the revenue recognised as Contract research is understated by \$620 000 (nil in 2008)
- Operating result after income tax is understated by \$9.6 million (\$5.4 million understated in 2008)
- Retained Surplus is understated by \$16 million (\$10.6 million understated in 2008)
- Other Liabilities is overstated by \$25.6 million (\$16 million overstated in 2008).

### **Qualified Auditor's Opinion**

In my opinion, except for the effect of the matter referred to in the preceding paragraphs, the financial statements present fairly, in all material respects, the financial position of the University of South Australia and of the consolidated entity as at 31 December 2009, and their financial performance and their cash flows for the year then ended in accordance with the Treasurer's Instructions promulgated under the provisions of the *Public Finance and Audit Act 1987*, the *Higher Education Supporting Act 2003* and Australian Accounting Standards.

soveni.
