## DEFINITIONS:

Subject Area and  
Catalogue Number  
Class Number

A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. BIOL 1033. You can search for courses by using this code.

Enrolment Class

A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.

Related Classes

An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.

Auto Enrol Class

Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.

In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

**Notes: IMPE is designed to be a full-time program. If you want to study part-time, you need to discuss this with the program director first.**

**Enrol into all courses for both study periods at the beginning of the year.**

## Study Period 2 – Course Information

Course name	Course code & Catalogue No.	Enrolment Class	Auto Enrolled Classes	Notes
Evidence Informed Clinical Reasoning in Physiotherapy	<a href="#">REHB 5127</a>	Lecture: Choose class number 20993	Tutorial	Your enrolment is now complete.
Physiotherapy Professional Practice	<a href="#">REHB 5066</a>	Lecture: Choose class number 21208	Tutorial	Your enrolment is now complete.
Musculoskeletal Skills in Physiotherapy	<a href="#">REHB 5133</a>	Lecture: Choose class number 21210	Tutorial and Practical	Your enrolment is now complete.

## Study Period 5 – Course Information
