DEFINITIONS:

Subject Area and Catalogue Number
Class Number

A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses by using this code.

A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.

Enrolment Class

An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.

Related Classes

Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.

Auto Enrol Class

In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

External Class

The external class number will be listed in the Classes column below. This number is the only enrolment class number you need to enter in 'Manage my Enrolment' when enrolling.

Study Period 2 - Course Information			SECOND YEAR	
Subject Area	Catalogue Number	Course Name	Classes	Notes
REHB	2043	Enabling Occupation through Environmental Adaptation	Choose one of the following Workshop classes, 22090, 22091, 22092, 22093 or 22094	You are automatically enrolled into the Lecture
REHB	2049	Principles of Occupational Therapy Practice	Choose one of the following Workshop classes, 22026, 22037, 22038, 22039 or 22040.	You are automatically enrolled into the Lecture
BEHL	2002	The Individual in Society 200	Choose one of the following Tutorial classes, 22096, 22097, 22098, 22099 or 22100.	You are automatically enrolled into the Lecture
BEHL	1005	Applied Psychology	Practical: Please choose class number 20544, 23783, 23784, 23785, 20545, 23786, 20546, 20547, 23787, 20548 OR 23788	This course belongs to the JUS Unit. Please enrol into all your Occupational Therapy specific classes (REHB 2043, REHB 2049 and BEHL 2002) then choose a Practical class from BEHL 1005 that fits you chosen timetable.

NOTES:

1. The table above shows the full list of courses to be taken by a student undertaking a full-time load solely in this year of the program.
2. Students enrol in all courses for both study periods (Study Periods 2 & 5) at the beginning of the year.
3. Please ensure you check the course timetable to confirm the location and possible external mode offering for each course.

It is strongly recommended that you visit the Study Support webpage to gain valuable information regarding your studies.
