## DEFINITIONS:

Subject Area and Catalogue Number

A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses by using this code.

Class Number

A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.

Enrolment Class

An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.

Related Classes

Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.

Auto Enrol Class

In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

## Study Period 2 - Course Information

## THIRD YEAR

Course name	Course code & Catalogue No.	Enrolment Class numbers	Auto Enrolled Classes	Options Students must choose to complete their enrolment
<a href="#">Motor Control and Learning</a>	HLTH 2026	<p>Practical: choose one of the following class numbers: 24287, 24301, 24288, 24296, 24307, 24302, 24292, 24297, 24305, 24295, 24289 or 24290.</p> <p><b><u>Students please note:</u></b>  <b>This course is offered at the SASI building.</b>  <b>Allow travel time.</b></p>	Lecture and Workshop	Your enrolment is now complete.
