

PROGRAM CODE	<p>IBHP</p> 
PROGRAM NAME	<p><u>Bachelor of Health Science (Public Health)</u></p>
ACADEMIC PLAN	<p>3rd Year</p>
CAMPUS CENTRAL	<p>Campus Central City East Level 3, Playford Building <u>ask@campuscentral.unisa.edu.au</u> 1300 301 703 (Please contact Campus Central if you need help with enrolling or have any queries about the information on this form)</p>

DEFINITIONS:

Subject Area and Catalogue Number	A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. BIOL 1033 . You can search for courses by using this code.
Class Number	A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.
Enrolment Class	An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.
Related Classes	Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.
Auto Enrol Class	In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial, you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

Study Period 2 OR Study Period 3 - Course Information

Course name	Course code & Catalogue No.	Enrolment Class numbers	Auto Enrolled Classes	Options Students must choose to complete their enrolment
Epidemiological Principles and Methods	HLTH 3046	Computer Practical: choose the following class 22862.
