# 2019 Enrolment Advice

## PROGRAM CODE
- **IHPZ**

## PROGRAM NAME
- **Bachelor of Physiotherapy (Honours)**
  
  (Click on the above to access the Program Home Page)

## ACADEMIC PLAN
- **2nd Year**

## CAMPUS CENTRAL
- Campus Central City East
  - Level 3, Playford Building
  - campuscentral.cityeast@unisa.edu.au
  - 1300 301 703

---

### DEFINITIONS:

- **Subject Area and Catalogue Number**
  - A 4-letter subject area code plus a 4-digit catalogue number make up the course code, e.g. **BIOL 1033**. You can search for courses by using this code.

- **Class Number**
  - A class number is a unique number used to identify individual classes held during a specified study period. You can use class numbers to enrol, starting with the class number of the enrolment class.

- **Enrolment Class**
  - An Enrolment Class is the first class you enrol in for a particular course. This can be a lecture (LEC), tutorial (TUT), workshop (WSH), practical (PRA) or external (EXT). There may be multiple enrolment classes to choose between. All other classes will be related to the enrolment class and will display once you select your enrolment class.

- **Related Classes**
  - Related classes are other components (i.e. a tutorial or practical) that make up the course. In some cases you may be automatically enrolled into a particular related class that is associated with the enrolment class you selected.

- **Auto Enrol Class**
  - In some courses, once you select the Enrolment Class, you are automatically enrolled (Auto-Enrol) in a second (related) class (e.g. by choosing a tutorial you are automatically enrolled into the lecture). You may still be required to select another related class to complete your enrolment.

---

Please read the directions for Physiotherapy Clinical Studies 201 so you enrol into the correct Workshop/Clinical combinations. The program is designed to complete on a full time basis. Students seeking part-time study must discuss this with the Program Director prior to enrolment.
## Study Period 2 - Course Information

<table>
<thead>
